The Hartford HealthCare Cancer Institute presents:

Value-Based Oncology:

Understanding & Adapting to New Paradigms in Cancer Care

*A Symposium for Oncology Providers,
Practice Administrators, Payers, Industry
and Health System Executives*

Saturday, May 13, 2017
7:30AM to 12:30PM

Connecticut Convention Center
100 Columbus Boulevard
Hartford, CT 06103

Program Description

Value-based medicine is an essential part of any healthcare reform discussion today. As the U.S. healthcare ecosystem grapples to understand what value-based medicine means, patients, providers, hospital system, payers and the life sciences industry will all have an increasing voice in those discussions. Because cancer care costs are among the fastest growing segment of the healthcare economy, more change is happening faster in oncology than other medical chronic diseases. As a result healthcare delivery reform in oncology will help determine a national model that will be applicable across medicine.

This symposium is designed to provide critical insight into the discussions that are happening today around value-based medicine as it relates to cancer care delivery in the U.S. Economic value models that incorporate patient values, change management for oncologists adjusting to new priorities in clinical care and models of data sharing and collaborative quality improvement will be presented.

New payment models for oncology practices and healthcare systems are on the immediate horizon. These alternative payment models will lead to changes in how medical oncologists work within their practice and regionally with their partners in the delivery of healthcare for patients with cancer, and are another aspect of value-based medicine that will be extensively covered in the symposium. Two Medicare based payment reform programs – the MIPS program contained within the Medicare Access and CHIP Reauthorization Act (MACRA), and the Oncology Care Model (OCM) – will be presented as well as an alternative payment model proposed by the American Society of Clinical Oncology.

During this symposium, oncologists across all specialties (medical oncology, radiation oncology, surgical oncology and others), as well as APRNs, RNs and other highly trained caregivers, will increase their understanding of the new provider payment models for services including chemotherapy, radiation therapy and surgery. Healthcare administrators not directly involved in oncology and those working in the health insurance industry will learn about the fundamental changes happening in oncology that will lead to similar changes across medicine in the near future and that are critical for anticipating and reacting to healthcare reform.

Schedule

7:30AM Coffee/Light Breakfast

8:00AM Introduction

Peter Yu, MD

Physician-in-Chief, Hartford HealthCare Cancer Institute

Assessing Value (10 minutes)

Evaluating Value in the Real World

Peter Yu, MD

Physician-in-Chief, Hartford HealthCare Cancer Institute

Keynote (40 minutes)

Health Economics Assessment of Value: ISPOR

Lou Garrison, PhD

Professor, Pharmaceutical Outcomes Research Policy Program, University of Washington and President, International Society for Pharmacoeconomics and Outcomes Research

Q & A (10 minutes)

9:00AM Quality & Value Initiatives

Engaging Providers and Facilitating QI

at Stanford (25 minutes)

Douglas Blayney, MD Professor of Medicine, Stanford University

The Fred Hutchinson HICOR Experience (25 minutes)

Gary Lyman, MD Professor Medical Oncology, University of Washington and Co-Director Hutchinson Institute for Cancer Outcomes Research

Q & A (10 minutes)

10:00 – 10:15AM Break

Payment Reform & APM

MACRA/MIPS (15 minutes)

Stephen Grubbs, MD Vice President Clinical Affairs, ASCO

Alternative Payment Models:

OCM & PCOP (15 minutes)

Stephen Grubbs, MD Vice President Clinical Affairs, ASCO

ASCO Come Home (20 minutes)

Elaine Towle, ASCO

Q & A (10 minutes)

11:15AM Real World Experience

OCM Experience at Yale (25 minutes)

Keri Adelson, MD Assistant Professor and Chief Quality Officer, Yale Smilow Cancer Hospital

OCM Panel (25 minutes)

Anne Chiang, MD, PhD – Moderator Assistant Professor and Chief Network Officer Yale Smilow Cancer Network

Dinesh Kapur, MD Director of Clinical Research, ECHO and Board of Directors Community Oncology Alliance

Jarod Post, MD Starling Physicians

Dawn Holcombe, MBA Executive Director, Connecticut Oncology Association

Q & A (10 minutes)

12:15PM Lunch

Program Objectives:

1. Learn about value models that reflect broader patient and societal perspectives.
2. Learn how reimbursements and payments will shift in this new healthcare landscape.
3. Understand the forces that are driving the new healthcare economy.

Highlighted Guest Faculty

Lou Garrison, PhD

Professor, Pharmaceutical Outcomes Research and Policy Program, University of Washington

President, International Society for Pharmacoeconomics and Outcomes Research

Doug Blayney, MD

Professor of Medicine, Stanford University

Past President, American Society of Clinical Oncology

Gary Lyman, MD, MPH

Professor of Medical Oncology, University of Washington

Co-Director, Hutchinson Institute for Cancer

Outcomes Research

Stephen Grubbs, MD

Vice President of Clinical Affairs, American Society of Clinical

Continuing Medical Education

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Connecticut State Medical Society (CSMS) through the joint providership of Hartford Healthcare and Hartford Hospital. Hartford Healthcare is accredited by the CSMS to provide continuing medical education for physicians. Hartford Healthcare designates this live activity for a maximum of 4.5 AMA PRA Category 1 Credit(s).™ Physicians should claim only the credit commensurate with the extent of their participation in this activity.

Conflict of Interest

All planning committee members responsible for planning CME activities provided by Hartford Hospital are required to disclose any actual or apparent conflict of interest related to the content of the presentation via the CME program application. In addition, program planners have an obligation to resolve any actual conflicts by recusing themselves from planning this program so as not to appear to influence the content.

Hartford HealthCare acknowledges the support of the Connecticut Oncology Association in the needs assessment of the Symposium.
